

KANABO K6

HALL EFFECT MAGNETIC KEYBOARD

PRODUCT FEATURES:

- Hall effect technology allows precise adjustment of the actuation point to match your playstyle and preferences.
- 8K polling rate (0.125 ms) delivers ultra-fast response and a real advantage in dynamic gameplay.
- Contactless, linear Gateron Orange magnetic switches guarantee outstanding smooth operation and long-lasting durability without loss of precision.
- Multi-layer Gasket dampening provides quieter, more stable, and more comfortable keystrokes.
- Advanced software with macro support, Rapid Trigger, and Snap Tap lets you unlock the full potential of the keyboard.
- N-key rollover ensures every keypress is registered accurately, even during complex combinations.
- Hot-swappable switches allow easy customization without soldering.
- MDA profile keycaps enhance comfort thanks to their cylindrical shape.
- 2-level adjustable tilt lets you set the keyboard position for maximum comfort during long sessions.

PRODUCT SPECIFICATION:

Communication	Wired
Interface	USB
Key mechanism	Hall effect Magnetic
Switches model	Gateron Magnetic Orange
Illumination color	RGB
Cable length	180 cm
Number of keys	87
Keys lifetime	150 mln.
