# SAI S12 ARGB PWM 3-PACK

## SET OF 3 120 MM FANS WITH FDB BEARING

### PRODUCT FEATURES:

- PWM control provides a wider speed control range – from near-silent operation at idle to maximum performance under load.
- The use of a durable FDB bearing with a lifespan of up to 50,000 h guarantees long-term reliability and high operating culture of the entire system.
- The optimal balance between airflow (49.60 CFM) and static pressure (1.72 mmH2O) guarantees effective cooling, easily overcoming the resistance of dense dust filters.
- Special blade geometry maintains high operating culture, reaching a noise level of 27 dB under measurement conditions.
- Available color variants and ARGB lighting options make it easy to maintain full visual consistency with the other elements of your setup.

### PRODUCT SPECIFICATION:

<b>Fan diameter</b>	120 mm
<b>PWM control</b>	Yes
<b>Rotational speed +/- 10%</b>	1 500 RPM
<b>Lifetime</b>	50 000 h
<b>Maximum fan airflow</b>	49,6 CFM
<b>Static pressure</b>	1,72 mmH2O
<b>Noise level</b>	27 dB
<b>Bearing type</b>	FDB (Fluid Dynamic Bearing)
<b>Connectors</b>	4-PIN
<b>Rated current</b>	0,15 A
<b>Illumination</b>	Yes
<b>Material</b>	PC, PBT
<b>Dimensions</b>	120 x 120 x 25 mm
<b>Weight</b>	480 g
<b>Included Accessories</b>	Set of assembly elements
